DETAILED ACTION

Allowable Subject Matter

Claims 1-28 are allowed.

The following is an examiner's statement of reasons for allowance:

With regards to independent claim 1, prior art fails to teach diffusing oxygen into the body of a monocrystalline LSO. The Examiner notes that while prior art does teach a method of forming an LSO crystal wherein said method comprises a step of adding about 1% oxygen, there is no suggestion or motivation to modify said method with a step of diffusing oxygen into said LSO crystal.

With regards to independent claim 19, the reasons for allowance have been set forth in the previous Office Action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, filed 6/26/06, with respect to claims 1-28 have been fully considered and are persuasive. The rejection of claims 1-28 has been withdrawn.
